

## HERMES

### Vertical blind cutting machine and punching system by Matic

#### HERMES ROLL TO ROLL

- Cut and roll the fabric simultaneously
- Equipped with pneumatic coupling for quick and easy securing and removal of the rolls
- Pneumatic controlled crush cut provides optimal pressure for precise cutting
- Speed controlled by the operator
- Meter counter
- Machine configured for these production widths: 1000 mm, 2000 mm, 2500 mm, 3000 mm

#### HERMES FLAT

- For slitting vertical blinds from panels that have top and bottom pockets finished
- Pneumatic controlled crush cut provides optimal pressure for precise cutting
- Cut widths 89 mm and 127 mm
- Maximum width of material 1300 mm
- Includes built-in punch for top hole
- This machine works in combination with M1 and HERA

#### HERMES PLUS

- Combination of Hermes roll to roll and Hermes flat features
- Maximum cutting width 1300 mm
